

M G Petrochem Pvt. Ltd.

Date: 29.05.2025

To

The Director

Ministry of Environment, Forest and Climate Change,

Integrated Regional Office, Bays No. 24-25,

Sector 31 A, Dakshin Marg, Chandigarh - 160030

Sub: Submission of Half-Yearly Compliance Report (October, 2024 to March, 2025) for Proposed 215 KLPD Grain based Ethanol plant along with 6.0 MW Co-generation Power Plant at Village Firozpur, Tehsil Raipur Rani, District-Panchkula, Haryana by M/s MG Petrochem Private Limited

Ref.: Environmental Clearance File No.: IA-J-11011/160/2021-IA-II(I) dated 26/10/2021

Dear Sir

With reference to the aforesaid subject and above cited reference matter, this is to apprise you that company has obtained Environmental Clearance vide letter No IA-J-11011/160/2021-IA-II(I) dated 26th October, 2021 for Proposed 215 KLPD Grain based Ethanol plant along with 6.0 MW Co-generation Power Plant at Village Firozpur, Tehsil Raipur Rani, District Panchkula, Haryana by M/s MG Petrochem Private Limited. The plant has started its manufacturing operations after obtaining CTO from HSPCB vide HSPCB/Consent/: 313106523PANCTO33374060 dated 24.03.2023 and the proposed capacity of 215 KLD is only being used for fuel ethanol manufacturing for participation in the prestigious EBP Programme.

Company has also obtained Environmental Clearance vide letter No IA-J-11011/160/2021-IA-II(I) dated 16th August, 2024 for Expansion of Grain based Ethanol Plant from 215 KLPD to 300 KLPD along with 6.0 MW Cogeneration Power Plant within existing plant premises. Company will submit this EC compliance in upcoming June 2025 compliance.

We are hereby submitting the Half Yearly Compliance Report (October, 2024 to March, 2025) of the conditions stipulated in our Environment Clearance letter issued by Ministry of Environment Forest and Climate Change, New Delhi.

This is for your kind consideration and records.

Thanking you and with regards,

Yours faithfully,

M/s MG Petrochem Private Limited

(Authorized Signatory)

Enclosed: Half Yearly Compliance Report (October, 2024 to March, 2025)

Six monthly Compliance report

(October, 2024 to March, 2025)

For

Proposed 215 KLPD Grain based Ethanol plant along with 6.0 MW Co-generation Power Plant

At

Village Firozpur, Tehsil Raipur Rani, District Panchkula, Haryana

Submitted by:

M/S. MG PETROCHEM PRIVATE LIMITED

Name of Project: Proposed 215 KLPD Grain based Ethanol plant along with 6.0 MW Cogeneration Power Plant at Village Firozpur, Tehsil Raipur Rani, District Panchkula, Haryana by M/s MG Petrochem Private Limited

Environmental Clearance File No.: IA-J-11011/160/2021-IA-II(I) (Annexure 1)

Date of Issue EC - 26/10/2021

EC Identification no.: EC21A060HR177311

Period of Compliance: October, 2024 to March, 2025

Status of project: The plant has started its manufacturing operations after obtaining CTO from HSPCB vide HSPCB/Consent/: 313106523PANCTO33374060 dated 24.03.2023 and the proposed capacity of 215 KLD is only being used for fuel ethanol manufacturing for participation in the prestigious EBP Programme. Company has also obtained Environmental Clearance vide letter No IA-J-11011/160/2021-IA-II(I) dated 16th August, 2024 for Expansion of Grain based Ethanol Plant from 215 KLPD to 300 KLPD along with 6.0 MW Cogeneration Power Plant within existing plant premises. Company will submit this EC compliance in upcoming December 2025 compliance.

SPECIFIC CONDITIONS

S. No.	Conditions	Compliance status
J. 140.	Conditions	comphance status
	As per OM dated 16 th June, 2021,	The company has obtained Environmental
	project falls in category B2 and the	Clearance from Ministry of Environment
	proposed capacity of 215 KLD shall be	Forests for 215 KLPD Grain based Fuel
	only be used for fuel ethanol	Ethanol Plant along with 6.0 MW Co-
	manufacturing as per self-certification	generation Power Plant vide letter no. IA-J-
	in form of a notarized affidavit by the	11011/160/2021-IA-II(I) dated 26 th October,
	Project Proponent. Provided that	2021. Copy of EC is enclosed as Annexure 1 .

		The plant has started its manufacturing
	The company shall comply with all the	operations after obtaining Consent to
	environmental protection measures	operate from Haryana State Pollution
	and safeguards proposed in the	Control Board vide HSPCB/Consent/:
	documents submitted to the Ministry.	313106523PANCTO33374060 dated
(ii)	All the recommendations made in the	24/03/2023. Copy of the CTO is enclosed as
	EIA/EMP in respect of environmental	Annexure 5.
	management, and risk mitigation	All the recommendations made in the
	measures relating to the project shall	EIA/EMP in respect of environmental
	be implemented.	management and risk mitigation measures
		relating to the project have been implemented.
		For existing distillery and Co-generation
		power plant the environmental protection
		measures and safeguards have been adopted.
		These include Integrated MEE, Decanters,
		Dryer, WWTP, CPU, ESP, Stack along with
		online monitoring system, Green Belt
		Development, Paved Roads, Covered Fuel yard,
		bevelopment, ravea Roads, covered raci yara,

	T	
		covered conveyer belt, Grain Silo Storage, Fire-
		fighting system, Occupation Health Centre, Lab
		Equipment, Water Sprinklers, Environmental
		Management Cell etc. which have been
		provided with respect to the environmental
		management plan.
		The plant is being based on Zero Effluent
		Discharge completely. The spent wash/Grain
		Slops is being passed through Centrifuge
		Decanters for separation of suspended solids
		separated as Wet Cake (also known as DWG
		Distillers Wet Grains). Thin Slops from the
		Decanter Centrifuge is being partly recycled
	The project proponent will treat and reuse the treated water within the factory and no waste or treated water shall be discharged outside the premises.	to process and the balance will be fed to
		Thin Slop Evaporation Plant for
		concentration of remaining solids to form
		Slop Syrup and partly recycled. These is
		being combined and sent for drying in a
		Dryer. The Wet Cake and Syrup mixture is
(iii)		being dried in Steam Tube Bundle Dryer for
		producing Dried Distillers Grains Soluble
		(DDGS). The DDGS is being /will be utilized
		as Cattle, poultry and fish feed ingredients.
		The Process Condensate, Spent Lees, others
		Effluent like Cooling Tower Blow Down etc.
		is being/will be recycled back to process and
		CT Makeup after treatment in existing CPU /
		ETP (Capacity: 1366 KLPD).
		The Sewage from Domestic Activities is
		being/will be treated in Sewage Treatment
		Plant (STP Capacity 30 KLPD) and such
		treated water is being/will be utilized in
		<u>I</u>

		greenbelt.
		No waste or treated water is being discharged
		outside the premises.
		Photograph of the Centrifuge Decanters,
		MEE, Dryer, ETP Plant, RO Plant, DDGS

		of Hazardous Waste at CHWTDF generated
		from ETP.
(xi)	The company shall undertake waste minimization measures as below (a) Metering and control of quantities of active ingredients to minimize waste; (b) Reuse of by-products from the process as raw materials or as raw material substitutes in other processes. (c) Use of automated filling to minimize spillage. (d) Use of Close Feed system into batch reactors. (e) Venting equipment through vapour recovery system. (f) Use of high-pressure hoses for equipment clearing to reduce wastewater generation.	 System for metering and controlling the quantities of active ingredients are already in place, system is designed to optimize the use of these ingredients, thereby reducing waste and promoting efficient use. Unit is also having centrifugal Decanters Followed by MEE and Dryer to minimize the waste. The CO2 generated from the fermentation process is collected in CO2 bottling plant and sold to authorized vendors. Unit is having automated filling to minimize spillage and closed feed system. The fly ash generated from the boiler is being/will be sold to nearby brick manufacturers. Unit is having the Dryers to convert the DWGS to DDGS and by utilizing its vapors heat in vapors integrated system, unit could reduce the steam consumption in Multi Effect Evaporator plant (MEE). Unit is having high pressure hoses to reduce waste water generation.

MG PETROCHEM PRIVATE LIMITED

MG House, Plot No 376, Industrial Area, Phase 1, Panchkula, Haryana, Panchkula, Haryana-134109

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the Ministry vide proposal number IA/HR/IND2/227212/2021 dated 01 Sep 2021. The particulars of the environmental clearance granted to the project are as below.

1. EC Identification No.

2. File No.

3. **Project Type**

4. Category

5. Project/Activity including Schedule No.

6. Name of Project EC21A060HR177311

IA-J-11011/160/2021-IA-II(I)

New

A

5g(a)-Grain Based distilleries for Ethanol

Blended Petrol

Proposed 215 KLPD Grain based Ethanol Plant along with 6.0 MW Cogeneration Power Plant at Village Firozpur, Tehsil Raipur Rani, District Panchkula, Haryana by M/s. MG Petrochem Private Limited

7. Name of Company/Organization

8. **Location of Project**

9. **TOR Date** MG PETROCHEM PRIVATE LIMITED

Haryana N/A

The project details along with terms and conditions are appended herewith from page no 2 onwards.

e Plotects

Date: 26/10/2021

(e-signed) A.K Pateshwary Director IA - (Industrial Projects - 2 sector)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH.Please quote identification number in all future correspondence.

This is a computer generated cover page.

This has reference to your online proposal No. IA/HR/IND2/227212/2021, dated $01^{\rm st}$ September, 2021 for environmental clearance to the above mentioned project.

- **2.** The Ministry of Environment, Forest and Climate Change has examined the proposal for proposed 215 KLPD Grain based Ethanol plant along with 6.0 MW Co-generation Power Plant at Village Firozpur, Tehsil Raipur Rani, District Panchkula, Haryana by M/s MG Petrochem Private Limited.
- **3.** All grain based fuel ethanol plants are listed at S.N. 5(ga) of Schedule of Environmental Impact Assessment (EIA) Notification, 2006 amendment vide S.O 2339 dated 16th June 2021 under category 'B-2' and appraised at Central Level by Expert Appraisal Committee (EAC). It was informed that no litigation is pending against the proposal.

4. The details of products and capacity are as under: -

Unit	Capacity	Product
Grain Based Ethanol Plant	215 KLPD	Product- Ethanol (Bio-fuel) By-product- DDGS &CO ₂
Co-generation Power Plant	6.0 MW	Power

- **5.** Total land required for the project is 7.76 hectares (77600 m^2). Industry will develop greenbelt in an area of 33% i.e. 2.56 ha (25600 m^2) out of total area of the project.
- **6.** The estimated project cost is Rs. 205 Crores. Total capital cost earmarked towards environmental pollution control measures is Rs. 24.0 Crores and the Recurring cost (operation and maintenance) will be about Rs. 1.5 Crores / annum. Total Employment will be 120 persons (Permanent 72 & temporary 48) during operation phase. Industry proposes to allocate Rs. 1.0 Crores of total project cost towards Social developmental activities.
- 7. There are No National Parks, Wildlife Sanctuaries, Biosphere Reserves, Tiger/ Elephant Reserves, Wildlife Corridors, lies within 10 km radius of the project site. PF like Rajpura PF (~4.5 km in NE direction), Gumti Sambhalwa RF (~7.5 km in East direction) & Kadana PF (~8.5 km in NNE direction), River/Nala i.e. Balrali Nadi (~1.0 km in SSE direction), Thathar ki Nadi (~3.5 km in North direction), Baliali Nala (~4.5 km in South direction), Dangri Nadi (~4.5 km in NW direction), Sangrel Nadi (~5.5 km in NE direction), Begna Nadi (~5.5 km in ESE direction), Ujjal ki Nadi (~7.5 km in SE direction) and Dudhgarh ki Nadi (~8.5 km in NW direction); Baliali Nala

- (4.5 km in South direction), Dhandiyon ka Nala (\sim 7.0 km in ENE direction) and Naura Nala (\sim 7.0 km in ENE direction) are found within 10 km radius.
- **8.** Total water requirement for the Grain based Ethanol Plant will be 3439 KLPD out of which 2372 KLPD will be recycled in plant operations. Hence, the fresh water requirement for the project will be 1097 KLPD (Ethanol Plant& Co-generation Power Plant and Utilities 1067 m3/day + Domestic: 30 m3/day) which will be sourced from groundwater. Effluent of 1212 m3/day will be treated through state of art CPU/Effluent Treatment Plant (Reverse Osmosis technology) of 1500 KLPD capacity. The plant will be based on Zero Liquid discharge system.
- **9.** Power requirement for Ethanol plant will be 4.0 MW, which will be sourced from the 6.0 MW Co-generation Power Plant. Construction power / standby power connection shall be taken from Haryana Bijli Vitran Nigam Limited. Unit will be having D.G. Sets of 2 x 1500 KVA which will be used as standby during power failure. Adequate Stack height (8 m) will be provided as per CPCB norms. Boiler of 50 TPH capacity with ESP as Air Pollution Control Equipment will be installed. ESP with a stack height of 60 m for 50 TPH boiler will be installed for controlling the particulate emissions within the statutory limit of 50 mg/Nm3.

10. Details of Process emissions generation and its management:

CO2 (164 TPD) generated during the fermentation process will be recovered by CO2 Scrubbers and sold to authorized vendors.

11. Details of Solid waste/Hazardous waste generation and its management:

- Solid waste from the Grain based operations generally comprises of fibres and proteins in the form of DDGS (94 TPD), which will be ideally used as Cattle, poultry & fish feed ingredients.
- Used oil & grease (0.5 KL/Annum) generated from plant machinery/gear boxes as hazardous waste will be sold out to the CPCB authorized recyclers.
- **12.** As per OM dated 16th June, 2021, PP has submitted self-certification in the form of affidavit declaring that the proposed capacity of 215 KLPD will be for manufacturing of fuel ethanol only.
- 13. During the appraisal EAC noted that proposed parking area of 10 % shall be increased to 15% of the total project area and PP obliged to it.
- **14.** The proposal was considered by the EAC in its 40th meeting held during 14th- 16th September, 2021 in the Ministry, wherein the project proponent and their consultant M/s J.M. EnviroNet Pvt. Ltd presented the EMP report as per the PFR. The Committee found the EMP report complying with the PFR and recommended the project for grant of environmental clearance.

- **15.** The EAC, constituted under the provision of the EIA Notification, 2006 and comprising of Experts Members/domain experts in various fields, have examined the proposal submitted by the Project Proponent in desired form along with EIA/EMP report prepared and submitted by the Consultant accredited by the QCI/ NABET on behalf of the Project Proponent. The EAC noted that the Project Proponent has given undertaking that the data and information given in the application and enclosures are true to the best of his knowledge and belief and no information has been suppressed in the EIA/EMP report. If any part of data/information submitted is found to be false/ misleading at any stage, the project will be rejected and Environmental Clearance given, if any, will be revoked at the risk and cost of the project proponent.
- **16.** The Committee has also deliberated on the CER plan and found to be addressing the issues in the study area. The EAC has deliberated the proposal and has made due diligence in the process as notified under the provisions of the EIA Notification, 2006, as amended from time to time and accordingly made the recommendations to the proposal. The Experts Members of the EAC have found the proposal in order and have **recommended** for grant of environmental clearance.
- 17. The environmental clearance granted to the project/activity is strictly under the provisions of the EIA Notification 2006 and its amendments. It does not tantamount/construe to approvals/consent/ permissions etc. required to be obtained or standards/conditions to be followed under any other Acts/ Rules/ Subordinate legislations, etc., as may be applicable to the project. The project proponent shall obtain necessary permission as mandated under the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981, as applicable from time to time, from the State Pollution Control Board, prior to construction & operation of the project.
- **18.** Based on the proposal submitted by the project proponent and recommendations of the EAC (Industry-2), Ministry of Environment, Forest and Climate Change hereby **accords** environmental clearance for establishment of proposed 215 KLPD Grain based Ethanol plant along with 6.0 MW Co-generation Power Plant at Village Firozpur, Tehsil Raipur Rani, District Panchkula, Haryana by M/s MG Petrochem Private Limited, under the provisions of the EIA Notification, 2006, and the amendments therein, subject to compliance of the terms and conditions as under: -

A. Specific Conditions:

(i) As per OM dated 16th June, 2021, project falls in category B2 and the proposed additional capacity of 215 KLPD shall be only for fuel ethanol manufacturing as per self-certification in form of an affidavit by the Project Proponent. Provided that subsequently if it is found that the ethanol, produced based on the EC granted as per this dispensation, is not being used completely for EBP Programme, or if ethanol is not being produced, or

if the said distillery is not fulfilling the requirements based on which the project has been appraised as category B2 project, the EC shall stand cancelled.

- (ii) The company shall comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project shall be implemented.
- (iii) The project proponent will treat and reuse the treated water within the factory and no waste or treated water shall be discharged outside the premises.
- (iv) Total fresh water requirement shall be 1097 KLPD which will be met ground water. Extraction of ground water shall not be done without obtaining prior permission of CGWA/concerned authority. No ground water recharge shall be permitted within the premises.
- (v) The spent wash shall be concentrated and dried to form DDGS to be used as cattle feed.
- (vi) CO₂ generated from the process shall be bottled/made solid ice and utilized/sold to authorized vendors.
- (vii) Occupational Health Centre for surveillance of the worker's health shall be set up. The health data shall be used in deploying the duties of the workers. All workers & employees shall be provided with required safety kits/mask for personal protection.
- (viii) Training shall be imparted to all employees on safety and health aspects of chemicals handling. Safety and visual reality training shall be provided to employees.
- (ix) The unit shall make the arrangement for protection of possible fire hazards during manufacturing process in material handling. Firefighting system shall be as per the norms.
- (x) Process organic residue and spent carbon, if any, shall be sent to Cement other suitable industries for its incinerations. ETP sludge, process inorganic & evaporation salt shall be disposed of to the TSDF.
- (xi) The company shall undertake waste minimization measures as below (a) Metering and control of quantities of active ingredients to minimize waste; (b) Reuse of by-products from the process as raw materials or as raw material substitutes in other processes. (c) Use of automated filling to minimize spillage. (d) Use of Close Feed system into batch reactors. (e) Venting equipment through vapour recovery system. (f) Use of high pressure hoses for equipment clearing to reduce wastewater generation.

- (xii) The green belt of 5 m width shall be developed in nearly 33% of the total project area, mainly along the plant periphery. Selection of plant species shall be as per the CPCB guidelines in consultation with the State Forest Department. Records of tree canopy shall be monitored through remote sensing map.
- (xiii) As committed PP shall allocate Rs. 1.0 Crore for CER and shall be used for implementing energy conservation measures and skill development for women/girls in nearby villages.
- (xiv) There shall be 15% space inside the plant premises earmarked for parking of vehicles for raw materials and finished products as per CPCB norms and no parking to be allowed outside on public places.
- (xv) Storage of raw materials shall be either stored in silos or in covered areas to prevent dust pollution and other fugitive emissions.
- (xvi) Continuous online (24x7) monitoring system for stack emissions shall be installed for measurement of flue gas discharge and the pollutants concentration, and the data to be transmitted to the CPCB and SPCB server. For online continuous monitoring of effluent, the unit shall install web camera with night vision capability and flow meters in the channel/drain carrying effluent within the premises.
- (xvii) A separate Environmental Management Cell (having qualified person with Environmental Science/Environmental Engineering/specialization in the project area) equipped with full-fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.

B. General Conditions:

- (i) No further expansion or modifications in the plant, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change/SEIAA, as applicable. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry/SEIAA, as applicable, to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
- (ii) The energy source for lighting purpose shall be preferably LED based, or advanced having preference in energy conservation and environment betterment.
- (iii) The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under the

Environment (Protection) Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time).

- (iv) The company shall undertake all relevant measures for improving the socio-economic conditions of the surrounding area. CER activities shall be undertaken by involving local villages and administration and shall be implemented. The company shall undertake eco-developmental measures including community welfare measures in the project area for the overall improvement of the environment.
- (v) The company shall earmark sufficient funds towards capital cost and recurring cost per annum to implement the conditions stipulated by the Ministry of Environment, Forest and Climate Change as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so earmarked for environment management/pollution control measures shall not be diverted for any other purpose.
- (vi) A copy of the clearance letter shall be sent by the project proponent to concerned Panchayat, Zilla Parishad/Municipal Corporation, Urban local Body and the local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal.
- (vii) The project proponent shall also submit six monthly reports on the status of compliance of the stipulated Environmental Clearance conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF&CC, the respective Zonal Office of CPCB and SPCB. A copy of Environmental Clearance and six monthly compliance status report shall be posted on the website of the company.
- (viii) The environmental statement for each financial year ending 31st March in Form-V as is mandated shall be submitted to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the respective Regional Offices of MoEF&CC by e-mail.
- (ix) The project proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB/Committee and may also be seen at Website of the Ministry and at https://parivesh.nic.in/. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the concerned Regional Office of the Ministry.
- (x) The project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.

- (xi) This Environmental clearance is granted subject to final outcome of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, if any, as may be applicable to this project.
- **19.** The Ministry reserves the right to stipulate additional conditions, if found necessary at subsequent stages and the project proponent shall implement all the said conditions in a time bound manner. The Ministry may revoke or suspend the environmental clearance, if implementation of any of the above conditions is not found satisfactory.
- **20.** Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- **21.** Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
- **22.** The above conditions will be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Hazardous Waste (Management, Handling and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 read with subsequent amendments therein.
- **23.** This issues with the approval of the competent authority.

<u>Sub: Letter of Intent (LOI) for Supply of Indigenous Denatured Anhydrous Ethanol - ESY 2022-23 (DEC-22 TO OCT-23)</u>

Dear Sir/ Madam,

This has reference to your e-bid against Joint OMC Tender/EOI No. **1000393915** (Cycle 9) (System ID **12397**) Dated **06/22/2023** & its Corrigendum (floated by BPCL on behalf of PSU OMCs).

Based on your participation, we are hereby issuing "Letter of Intent" to you for supply of Indigenous Denatured Anhydrous Ethanol (meeting BIS Specifications IS 15464 and as amended from time to time) to our locations, as per details given below:

June'23 to August'23

Tane 25 to Magast 25									
State	Location	Feedstock	Qty. in KL	Basic	Tpt. Cost	GST	Landed	Total	
		for		rate	in KL	Rs./KL	cost	Delivered	
		Ethanol		Rs./KL		5%	Rs./KL	cost in Rs.	
Assam	Guwahati	Surplus	175	58500	5999	3224.95	67723.95	11851691	
	IRD	Rice							

Amount Grand Total: Rs. 11851691 (around Rs. 1.19 Cr.)

Salient Terms and Conditions:

The Terms & Conditions of procurement are as follows:

Ethanol Rates: The Ex-mill Basic Ethanol Prices will be as follows:

For Ethanol produced Sugar Cane Juice/Sugar Syrup/Sugar @ Rs.65.61/ litre.

For Ethanol produced from B heavy molasses - @ Rs.60.73/ litre.

This is a system generated LOI, hard copy of the same shall be issued by respective Zonal offices. For further assistance in the matter for Security Deposit, agreement etc. kindly get in touch with Zonal offices.

For Ethanol produced from "C" Heavy Molasses - @ Rs.49.41/ litre.
For Ethanol produced from Damaged Food grains - @ Rs. 55.54/ litre
For Ethanol produced from Surplus Rice sourced from FCI - @ Rs. 58.50/ litre
For Ethanol produced from Maize - @ Rs. 56.35/ litre

- Additionally, transportation charges as per One-way Distance Transportation Slab Rate mentioned in the Tender/EOI and GST @ 5% (or as may be applicable from time to time) on Basic Rate plus Transportation charges will be paid to you.
- > Transportation rates shall be applicable from time to time as per terms & conditions of the EOI.
- > The Import fees of State Excise or any other charges eg. Entry Tax, LBT etc. if incurred by OMC for receiving supply, will be on suppliers account and shall be deducted from suppliers' bills. The prices are on Delivered Cost basis at OMC Locations inclusive of all duties/levies/taxes/charges etc. payable by supplier.
- > On sole discretion of OMCs, vendors may be asked to shift 20% of the allocated quantity of the location to any other location on need basis during the latter part of the ESY by informing the bidder well in advance
- ➤ OMCs may procure additional quantity up to 10% over and above the allocated quantity across feedstock categories across locations from the vendor on mutual consent basis by issuing LOI/ Purchase orders.
- The quarters for Ethanol supply will be as follows (first day of first month to last day of end month as applicable):

Quarter I : 1st Dec' 22 to 28th Feb' 23
Quarter II : 1st Mar' 23 to 31st May' 23
Quarter III : 1st Jun' 23 to 31st Aug' 23
Quarter IV : 1st Sep' 23 to 31st Oct' 23

Department of Food & Public Distribution (DFPD) would provide a mechanism of certification to differentiate Ethanol produced from Sugarcane Juice/Sugar/Sugar Syrup and B Heavy molasses and grains (maize/ damaged food grains/ surplus rice sourced from FCI). OMCs shall pay the rate fixed for ethanol derived from B Heavy molasses and Sugarcane Juice/Sugar/Sugar Syrup and grains (maize, damaged food grains/ surplus rice sourced from FCI) only if the Tank Truck delivering Ethanol from such feedstock is carrying the Certificate/ Document as per prescribed mechanism.

Existing mechanism for certification of ethanol shall prevail till the revised mechanism if any is issued by DFPD at a later date.

In case of Ethanol manufactured from Damaged food grains each TT delivering Ethanol from Damaged Food Grain must carry the Certificate/ Document issued by Excise Authority with unique serial number certifying the feed stock used for production i.e., Damaged food grain of such Ethanol and the invoice should have endorsement from Excise officials with the serial number of the certificate as mentioned above which will be attached along with the consignment.

In case of Ethanol manufactured from maize/ surplus rice sourced from FCI, suppliers are required to submit a certificate stating that the Ethanol has been produced from Maize along with every Tank Lorry carrying Ethanol produced from Maize and supplied to OMC location.

"This LOI is being issued in bona-fide understanding pursuant to Hon'ble NGT Orders dated 28 September, 2018 and 30 October, 2018 and subject to the directions mentioned therein. You will be complying with the safety norms as specified by PESO and all others rules/ regulations framed by PESO in this regard and/or any directions issued by Hon'ble NGT/ any other court."

Refer clause in the Tender/EOI No 1000393915, system ID 6683, The project proponents/ suppliers who have valid Long Term Offtake Agreement and offer quantity during the ESY 2022-23 will be given preferential allocation for supplying Ethanol to the extent of prorated design capacity for the balance period of ESY 22-23. However, the said suppliers are required to register themselves with OMCs for their upcoming plants (including expansion of existing distillery) and participate in the Ethanol Procurement process of OMCs during the ESY 22-23. In order to meet the above prorated annual off-take quantity as per agreement, if found necessary, the pre-allocated quantities awarded to bidders (other than DEPs) under this EOI may be reduced. Such reduction in allocated quantity will be carried out in the reverse order of EOI allocation criteria, as described below:

- 1. The allocation made to the farthest existing supplier from the OMC location from outside the state shall be reduced first.
- 2. If the quantity is not sufficient to accommodate the offtake quantity as per agreement, then allocation from the next farthest existing supplier shall be reduced and so on as per distance of the existing supplier(s) from OMC location.
- 3. If the quantity reduced from existing suppliers from outside state is not sufficient to accommodate the offtake quantity as per agreement, then the reduction in allocation from the existing suppliers from within the state shall be resorted to.
- 4. Within the state, the allocation made for ethanol from CHM, DFG, Maize and FCI rice from the farthest existing supplier shall be reduced first.
- 5. If the quantity is not sufficient, then allocation for ethanol from CHM, DFG, Maize and FCI rice from next farthest existing supplier shall be reduced and so on as per distance of the existing supplier from OMC location.
- 6. Next, allocation made for ethanol from BHM shall be reduced as explained in step 4&5 above.
- 7. Next allocation made from SCJ shall be reduced as explained in step 4&5 above.
- 8. The quantity so reduced, endeavor would be made to shift the same to the locations wherever additional Ethanol is required by OMCs
- 9. For the above, the distance between OMC location and the existing supplier will be based on the one-way distance slab applicable for transportation rates.

The reduced quantity, as above, may be re-allocated based on mutual consent. In case, re-allocation not acceptable to the existing supplier, the allocation will stand reduced, and the balance quantity after reduction from the original allocation will only be considered for PRC, BG, indents, etc. and not on the original quantity.

The existing supplier will be informed at least one month in advance about the above reduction in the pre-allocated quantity.

Delivery schedule:

- (a) The Supplier, within a maximum period of one month of placement of LOI shall Deposit Bank Guarantee or Demand Draft and signed Agreement. If the supplier does not submit BG and/or signed agreement within specified period as per LOI, the LOI may be treated as cancelled and the Supplier's EMD may be forfeited and holiday listing provisions may apply. In case, if supplier is not able to honor the LOIs issued by OMCs for a particular category/all categories of the feedstock, the LOI may be treated as cancelled and the Supplier's EMD may be forfeited and holiday listing provisions may apply.
- (b) The vendor shall be liable for applicability of PRC clause for delay in submission of BG beyond above mentioned period.
- (c) It is to be noted that timely delivery by the Supplier as per the delivery schedule is the essence of contract. Monthly procurement plan based on monthly pro-rata Purchase Order (PO) quantity shall be applicable to Vendor for supply unless same is revised by OMC Location with mutual consent.
- (d) It will be the responsibility of the Suppliers to arrange for all the approvals / clearances / permits in connection with Excise or any statutory requirement for supply of ethanol to the OMC locations as per the Tender/EOI clause of delivery period. Applications as required for necessary NOCs /Permits / import /export permits etc will be made available by the OMCs.
- (e) Suppliers shall engage only such Tank Truck crew whose Antecedents have been verified and certificate issued by Police or proof of application made for the same. This will be verified by the locations for entry of TT crew into the OMC locations.

The delivery should commence within 15 days from the date of LOI or 7 days from the date of the PO, once placed, whichever is earlier.

Security Deposit (SD):

Security deposit of 03% of basic contract value in the form of BG/ retention of SD amount from initial invoices, for the full allocation of ESY 2022-23 will be given by the successful vendor within one month of issuance of LOI. In case the successful bidder is unable to meet this condition, the allocation for which SD is not submitted is liable to be withdrawn.

Payment terms:

100% of the payment shall be made within 21 days' after receipt of material at OMC Location and against submission of original invoice along with applicable excise certificates for differentiation of various feed stock.

Provisions of TCS will be as applicable from time to time.

Transit Insurance:

The transit insurance for Ethanol being delivered at OMC location will be in the scope of the supplier. The rates quoted are inclusive of insurance charges and applicable taxes/duties /service tax etc.

Supply Agreement:

Along with submission of Security Deposit, the Ethanol Supply Agreement (as per attached Agreement format) to be submitted for issuance of Purchase Order.

It is to be clearly understood that, particularly in respect of States where the State Excise Dept. has relinquished its control & monitoring for Denatured Ethanol as per amendment to IDR Act, the entire responsibility of proper Denaturation of Ethanol and en-route malpractice, if any; will be that of the Supplier and OMCs will not be responsible for the same in any manner and directions of respective state govt. who have relinquished control, the conditions stipulated if any be followed by Suppliers.

Change of Distillery:

The supplier who has multiple distilleries registered with BPC under the EOI, due to some issue in the original distillery, supplier shall be allowed to change to alternate distillery (ies) during the period of contract with following conditions: -

- 1. The alternate distillery (ies) can be located in the same state or other state. Quantities so accepted from the alternate distillery, will be allocated by OMCs to the needy locations.
- 2. Certificate from state excise clearly mentioning the reason for non-supply of Ethanol from the original distillery.
- 3. Certificate from state excise clearly mentioning the alternate distillery of the supplier from which the pending quantity is proposed to be supplied. This pending quantity supplied by alternate distillery will be adjusted from allocation of original distillery.
- 4. The transportation rate applicable shall be less than or equal to the rate as per original contract.
- 5. Change of distillery is allowed for:
 - Cooperative distilleries under the administrative control of State Government
 - Distilleries belonging to one company
 - Distilleries belonging to the holding company or wholly owned subsidiary of the supplier company.
 - Certificate from practicing chartered accountant/ company secretary needs to be submitted
 to establish that new supplier is either a holding company or wholly owned subsidiary of the
 original supplier company.

Corrective Measures For Improving Blending Percentage

In order to meet blending targets OMCs reserve the right to take corrective measures under this EOI to promote Ethanol supplies.

Price reduction clause:

The modalities for PRC shall be as under:

Monthly pro-rata PO qty shall be applicable to vendor for supplies of ethanol for the contract period. The supplier shall strictly adhere to the supply schedule i.e. day wise indent (based on monthly prorata PO qty) if provided by OMC location or monthly pro-rata PO quantity. Price Reduction Clause will not be applicable if supplier achieves supply performance of a minimum of 90% of the quantity per month as well as achieve supply performance of a minimum of 95% of the quantity on yearly basis.

In case, the vendor does not achieve 90% of the supplies for a particular month, Price Reduction Clause will be applicable for shortfall in supply. However, if the supplier is able to supply 100% of PO quantity /prorata PO quantity based on date of PO in the quarter (keeping the overall lapse due to TT capacity limited up to 12 KL) and OMC location is able to receive such quantity, monthly PRC shall not be applicable on the supplier for that particular quarter.

Price reduction clause will be calculated at the end of ESY 22-23 as below:

Beginning of the first month will be calculated as 15 days from date of issue of LOI or 7 days from the date of issue of PO or date of reporting of first load, whichever is earlier. If the beginning of the first month does not fall on the first day of the calendar month, prorated indent for the balance period of that month would be considered. Consecutive months of the quarter as defined in the EOI shall form the quarter.

An amount equivalent to 03% of the Basic Cost shall be payable by the supplier for the undelivered monthly quantity (90% of Indented quantity less supplied quantity on month-to-month basis for all such months, excluding the month(s) in those quarter(s) in which 100% supplies made, or for the undelivered yearly quantity (95% of Indented quantity less supplied during the year), whichever is higher.

PRC amount shall be deducted from the payment due to the vendors and/ or by encashing security deposit. OMCs decision in the above cases shall be final.

In addition to above PRC amount, any statutory tax shall be payable as applicable.

In case state government have not issued guidelines for supply of Ethanol produced from Sugarcane Juice/Sugar/Sugar Syrup and/or B Heavy Molasses then in such cases the PRC shall not be applicable for the period until such time certification is started by Excise or any other competent authority in State. In case of any dispute related to PRC waiver, State/regional level OMC committee will study based on the representation received from suppliers, verify facts & submit detailed report to HQO/HO OMC committee to resolve the matter.

Please send signed & sealed copy of Agreement on Non-Judicial Stamp Paper as prescribed in the respective State along-with Security Deposit within one month from receipt of LOI.

The Tender/EOI Documents, Amendments, the Terms & Conditions of the Tender/EOI, Specifications and all other correspondences connected with this Tender/EOI offer shall form part of this Contract Agreement and shall remain in force during the entire contract period.

Letter of Intent (LOI)

<u>Sub: Letter of Intent (LOI) for Supply of Indigenous Denatured Anhydrous Ethanol - ESY 2022-23 (DEC-22 TO OCT-23)</u>

Dear Sir/ Madam,

This has reference to your e-bid against Joint OMC Tender/EOI No. **1000393915** (Cycle 8) (System ID **11909**) Dated **05/30/2023** & its Corrigendum (floated by BPCL on behalf of PSU OMCs).

Based on your participation, we are hereby issuing "Letter of Intent" to you for supply of Indigenous Denatured Anhydrous Ethanol (meeting BIS Specifications IS 15464 and as amended from time to time) to our locations, as per details given below:

Sep'23 to Oct'23

State	Location	Feedstock	Qty. in KL	Basic	Tpt. Cost	GST	Landed	Total
		for		rate	in KL	Rs./KL	cost	Delivered
		Ethanol		Rs./KL		5%	Rs./KL	cost in Rs.
Jammu	Jammu	Surplus	400	58500	946	2972.3	62418.3	24967320
	Ird	Rice						

Amount Grand Total: Rs. 24967320 (around Rs. 2.50 Cr.)

Salient Terms and Conditions:

The Terms & Conditions of procurement are as follows:

Ethanol Rates: The Ex-mill Basic Ethanol Prices will be as follows:

For Ethanol produced Sugar Cane Juice/Sugar Syrup/Sugar @ Rs.65.61/ litre.

For Ethanol produced from B heavy molasses - @ Rs.60.73/ litre.

This is a system generated LOI, hard copy of the same shall be issued by respective Zonal offices. For further assistance in the matter for Security Deposit, agreement etc. kindly get in touch with Zonal offices.

For Ethanol produced from "C" Heavy Molasses - @ Rs.49.41/ litre.
For Ethanol produced from Damaged Food grains - @ Rs. 55.54/ litre
For Ethanol produced from Surplus Rice sourced from FCI - @ Rs. 58.50/ litre
For Ethanol produced from Maize - @ Rs. 56.35/ litre

- Additionally, transportation charges as per One-way Distance Transportation Slab Rate mentioned in the Tender/EOI and GST @ 5% (or as may be applicable from time to time) on Basic Rate plus Transportation charges will be paid to you.
- > Transportation rates shall be applicable from time to time as per terms & conditions of the EOI.
- > The Import fees of State Excise or any other charges eg. Entry Tax, LBT etc. if incurred by OMC for receiving supply, will be on suppliers account and shall be deducted from suppliers' bills. The prices are on Delivered Cost basis at OMC Locations inclusive of all duties/levies/taxes/charges etc. payable by supplier.
- > On sole discretion of OMCs, vendors may be asked to shift 20% of the allocated quantity of the location to any other location on need basis during the latter part of the ESY by informing the bidder well in advance
- ➤ OMCs may procure additional quantity up to 10% over and above the allocated quantity across feedstock categories across locations from the vendor on mutual consent basis by issuing LOI/ Purchase orders.
- The quarters for Ethanol supply will be as follows (first day of first month to last day of end month as applicable):

Quarter I : 1st Dec' 22 to 28th Feb' 23
Quarter II : 1st Mar' 23 to 31st May' 23
Quarter III : 1st Jun' 23 to 31st Aug' 23
Quarter IV : 1st Sep' 23 to 31st Oct' 23

Department of Food & Public Distribution (DFPD) would provide a mechanism of certification to differentiate Ethanol produced from Sugarcane Juice/Sugar/Sugar Syrup and B Heavy molasses and grains (maize/ damaged food grains/ surplus rice sourced from FCI). OMCs shall pay the rate fixed for ethanol derived from B Heavy molasses and Sugarcane Juice/Sugar/Sugar Syrup and grains (maize, damaged food grains/ surplus rice sourced from FCI) only if the Tank Truck delivering Ethanol from such feedstock is carrying the Certificate/ Document as per prescribed mechanism.

Existing mechanism for certification of ethanol shall prevail till the revised mechanism if any is issued by DFPD at a later date.

In case of Ethanol manufactured from Damaged food grains each TT delivering Ethanol from Damaged Food Grain must carry the Certificate/ Document issued by Excise Authority with unique serial number certifying the feed stock used for production i.e., Damaged food grain of such Ethanol and the invoice should have endorsement from Excise officials with the serial number of the certificate as mentioned above which will be attached along with the consignment.

In case of Ethanol manufactured from maize/ surplus rice sourced from FCI, suppliers are required to submit a certificate stating that the Ethanol has been produced from Maize along with every Tank Lorry carrying Ethanol produced from Maize and supplied to OMC location.

"This LOI is being issued in bona-fide understanding pursuant to Hon'ble NGT Orders dated 28 September, 2018 and 30 October, 2018 and subject to the directions mentioned therein. You will be complying with the safety norms as specified by PESO and all others rules/ regulations framed by PESO in this regard and/or any directions issued by Hon'ble NGT/ any other court."

Refer clause in the Tender/EOI No 1000393915, system ID 6683, The project proponents/ suppliers who have valid Long Term Offtake Agreement and offer quantity during the ESY 2022-23 will be given preferential allocation for supplying Ethanol to the extent of prorated design capacity for the balance period of ESY 22-23. However, the said suppliers are required to register themselves with OMCs for their upcoming plants (including expansion of existing distillery) and participate in the Ethanol Procurement process of OMCs during the ESY 22-23. In order to meet the above prorated annual off-take quantity as per agreement, if found necessary, the pre-allocated quantities awarded to bidders (other than DEPs) under this EOI may be reduced. Such reduction in allocated quantity will be carried out in the reverse order of EOI allocation criteria, as described below:

- 1. The allocation made to the farthest existing supplier from the OMC location from outside the state shall be reduced first.
- 2. If the quantity is not sufficient to accommodate the offtake quantity as per agreement, then allocation from the next farthest existing supplier shall be reduced and so on as per distance of the existing supplier(s) from OMC location.
- 3. If the quantity reduced from existing suppliers from outside state is not sufficient to accommodate the offtake quantity as per agreement, then the reduction in allocation from the existing suppliers from within the state shall be resorted to.
- 4. Within the state, the allocation made for ethanol from CHM, DFG, Maize and FCI rice from the farthest existing supplier shall be reduced first.
- 5. If the quantity is not sufficient, then allocation for ethanol from CHM, DFG, Maize and FCI rice from next farthest existing supplier shall be reduced and so on as per distance of the existing supplier from OMC location.
- 6. Next, allocation made for ethanol from BHM shall be reduced as explained in step 4&5 above.
- 7. Next allocation made from SCJ shall be reduced as explained in step 4&5 above.
- 8. The quantity so reduced, endeavor would be made to shift the same to the locations wherever additional Ethanol is required by OMCs
- 9. For the above, the distance between OMC location and the existing supplier will be based on the one-way distance slab applicable for transportation rates.

The reduced quantity, as above, may be re-allocated based on mutual consent. In case, re-allocation not acceptable to the existing supplier, the allocation will stand reduced, and the balance quantity after reduction from the original allocation will only be considered for PRC, BG, indents, etc. and not on the original quantity.

The existing supplier will be informed at least one month in advance about the above reduction in the pre-allocated quantity.

Delivery schedule:

- (a) The Supplier, within a maximum period of one month of placement of LOI shall Deposit Bank Guarantee or Demand Draft and signed Agreement. If the supplier does not submit BG and/or signed agreement within specified period as per LOI, the LOI may be treated as cancelled and the Supplier's EMD may be forfeited and holiday listing provisions may apply. In case, if supplier is not able to honor the LOIs issued by OMCs for a particular category/all categories of the feedstock, the LOI may be treated as cancelled and the Supplier's EMD may be forfeited and holiday listing provisions may apply.
- (b) The vendor shall be liable for applicability of PRC clause for delay in submission of BG beyond above mentioned period.
- (c) It is to be noted that timely delivery by the Supplier as per the delivery schedule is the essence of contract. Monthly procurement plan based on monthly pro-rata Purchase Order (PO) quantity shall be applicable to Vendor for supply unless same is revised by OMC Location with mutual consent.
- (d) It will be the responsibility of the Suppliers to arrange for all the approvals / clearances / permits in connection with Excise or any statutory requirement for supply of ethanol to the OMC locations as per the Tender/EOI clause of delivery period. Applications as required for necessary NOCs / Permits / import / export permits etc will be made available by the OMCs.
- (e) Suppliers shall engage only such Tank Truck crew whose Antecedents have been verified and certificate issued by Police or proof of application made for the same. This will be verified by the locations for entry of TT crew into the OMC locations.

The delivery should commence within 15 days from the date of LOI or 7 days from the date of the PO, once placed, whichever is earlier.

Security Deposit (SD):

Security deposit of 03% of basic contract value in the form of BG/ retention of SD amount from initial invoices, for the full allocation of ESY 2022-23 will be given by the successful vendor within one month of issuance of LOI. In case the successful bidder is unable to meet this condition, the allocation for which SD is not submitted is liable to be withdrawn.

Payment terms:

100% of the payment shall be made within 21 days' after receipt of material at OMC Location and against submission of original invoice along with applicable excise certificates for differentiation of various feed stock.

Provisions of TCS will be as applicable from time to time.

Transit Insurance:

The transit insurance for Ethanol being delivered at OMC location will be in the scope of the supplier. The rates quoted are inclusive of insurance charges and applicable taxes/duties /service tax etc.

Supply Agreement:

Along with submission of Security Deposit, the Ethanol Supply Agreement (as per attached Agreement format) to be submitted for issuance of Purchase Order.

It is to be clearly understood that, particularly in respect of States where the State Excise Dept. has relinquished its control & monitoring for Denatured Ethanol as per amendment to IDR Act, the entire responsibility of proper Denaturation of Ethanol and en-route malpractice, if any; will be that of the Supplier and OMCs will not be responsible for the same in any manner and directions of respective state govt. who have relinquished control, the conditions stipulated if any be followed by Suppliers.

Change of Distillery:

The supplier who has multiple distilleries registered with BPC under the EOI, due to some issue in the original distillery, supplier shall be allowed to change to alternate distillery (ies) during the period of contract with following conditions: -

- 1. The alternate distillery (ies) can be located in the same state or other state. Quantities so accepted from the alternate distillery, will be allocated by OMCs to the needy locations.
- 2. Certificate from state excise clearly mentioning the reason for non-supply of Ethanol from the original distillery.
- Certificate from state excise clearly mentioning the alternate distillery of the supplier from which
 the pending quantity is proposed to be supplied. This pending quantity supplied by alternate
 distillery will be adjusted from allocation of original distillery.
- 4. The transportation rate applicable shall be less than or equal to the rate as per original contract.
- 5. Change of distillery is allowed for:
 - Cooperative distilleries under the administrative control of State Government
 - Distilleries belonging to one company
 - Distilleries belonging to the holding company or wholly owned subsidiary of the supplier company.
 - Certificate from practicing chartered accountant/ company secretary needs to be submitted
 to establish that new supplier is either a holding company or wholly owned subsidiary of the
 original supplier company.

Corrective Measures For Improving Blending Percentage

In order to meet blending targets OMCs reserve the right to take corrective measures under this EOI to promote Ethanol supplies.

Price reduction clause:

The modalities for PRC shall be as under:

Monthly pro-rata PO qty shall be applicable to vendor for supplies of ethanol for the contract period. The supplier shall strictly adhere to the supply schedule i.e. day wise indent (based on monthly prorata PO qty) if provided by OMC location or monthly pro-rata PO quantity. Price Reduction Clause will not be applicable if supplier achieves supply performance of a minimum of 90% of the quantity per month as well as achieve supply performance of a minimum of 95% of the quantity on yearly basis.

In case, the vendor does not achieve 90% of the supplies for a particular month, Price Reduction Clause will be applicable for shortfall in supply. However, if the supplier is able to supply 100% of PO quantity /prorata PO quantity based on date of PO in the quarter (keeping the overall lapse due to TT capacity limited up to 12 KL) and OMC location is able to receive such quantity, monthly PRC shall not be applicable on the supplier for that particular quarter.

Price reduction clause will be calculated at the end of ESY 22-23 as below:

Beginning of the first month will be calculated as 15 days from date of issue of LOI or 7 days from the date of issue of PO or date of reporting of first load, whichever is earlier. If the beginning of the first month does not fall on the first day of the calendar month, prorated indent for the balance period of that month would be considered. Consecutive months of the quarter as defined in the EOI shall form the quarter.

An amount equivalent to 03% of the Basic Cost shall be payable by the supplier for the undelivered monthly quantity (90% of Indented quantity less supplied quantity on month-to-month basis for all such months, excluding the month(s) in those quarter(s) in which 100% supplies made, or for the undelivered yearly quantity (95% of Indented quantity less supplied during the year), whichever is higher.

PRC amount shall be deducted from the payment due to the vendors and/ or by encashing security deposit. OMCs decision in the above cases shall be final.

In addition to above PRC amount, any statutory tax shall be payable as applicable.

In case state government have not issued guidelines for supply of Ethanol produced from Sugarcane Juice/Sugar/Sugar Syrup and/or B Heavy Molasses then in such cases the PRC shall not be applicable for the period until such time certification is started by Excise or any other competent authority in State. In case of any dispute related to PRC waiver, State/regional level OMC committee will study based on the representation received from suppliers, verify facts & submit detailed report to HQO/HO OMC committee to resolve the matter.

Please send signed & sealed copy of Agreement on Non-Judicial Stamp Paper as prescribed in the respective State along-with Security Deposit within one month from receipt of LOI.

The Tender/EOI Documents, Amendments, the Terms & Conditions of the Tender/EOI, Specifications and all other correspondences connected with this Tender/EOI offer shall form part of this Contract Agreement and shall remain in force during the entire contract period.

- 8. The quantity so reduced, endeavor would be made to shift the same to the locations wherever additional Ethanol is required by OMCs
- 9. For the above, the distance between OMC location and the existing supplier will be based on the one-way distance slab applicable for transportation rates.

The reduced quantity, as above, may be re-allocated based on mutual consent. In case, re-allocation not acceptable to the existing supplier, the allocation will stand reduced, and the balance quantity after reduction from the original allocation will only be considered for PRC, BG, indents, etc. and not on the original quantity.

The existing supplier will be informed at least one month in advance about the above reduction in the pre-allocated quantity.

Delivery schedule:

- (a) The Supplier, within a maximum period of one month of placement of LOI shall Deposit Bank Guarantee or Demand Draft and signed Agreement. If the supplier does not submit BG and/or signed agreement within specified period as per LOI, the LOI may be treated as cancelled and the Supplier's EMD may be forfeited and holiday listing provisions may apply. In case, if supplier is not able to honor the LOIs issued by OMCs for a particular category/all categories of the feedstock, the LOI may be treated as cancelled and the Supplier's EMD may be forfeited and holiday listing provisions may apply.
- (b) The vendor shall be liable for applicability of PRC clause for delay in submission of BG beyond above mentioned period.
- (c) It is to be noted that timely delivery by the Supplier as per the delivery schedule is the essence of contract. Monthly procurement plan based on monthly pro-rata Purchase Order (PO) quantity shall be applicable to Vendor for supply unless same is revised by OMC Location with mutual consent.
- (d) It will be the responsibility of the Suppliers to arrange for all the approvals / clearances / permits in connection with Excise or any statutory requirement for supply of ethanol to the OMC locations as per the Tender/EOI clause of delivery period. Applications as required for necessary NOCs / Permits / import / export permits etc will be made available by the OMCs.
- (e) Suppliers shall engage only such Tank Truck crew whose Antecedents have been verified and certificate issued by Police or proof of application made for the same. This will be verified by the locations for entry of TT crew into the OMC locations.

The delivery should commence within 15 days from the date of LOI or 7 days from the date of the PO, once placed, whichever is earlier.

Security Deposit (SD):

Security deposit of 03% of basic contract value in the form of BG/ retention of SD amount from initial invoices, for the full allocation of ESY 2022-23 will be given by the successful vendor within one month of issuance of LOI. In case the successful bidder is unable to meet this condition, the allocation for which SD is not submitted is liable to be withdrawn.

Payment terms:

100% of the payment shall be made within 21 days' after receipt of material at OMC Location and against submission of original invoice along with applicable excise certificates for differentiation of various feed stock.

Provisions of TCS will be as applicable from time to time.

Transit Insurance:

The transit insurance for Ethanol being delivered at OMC location will be in the scope of the supplier. The rates quoted are inclusive of insurance charges and applicable taxes/duties /service tax etc.

Supply Agreement:

Along with submission of Security Deposit, the Ethanol Supply Agreement (as per attached Agreement format) to be submitted for issuance of Purchase Order.

It is to be clearly understood that, particularly in respect of States where the State Excise Dept. has relinquished its control & monitoring for Denatured Ethanol as per amendment to IDR Act, the entire responsibility of proper Denaturation of Ethanol and en-route malpractice, if any; will be that of the Supplier and OMCs will not be responsible for the same in any manner and directions of respective state govt. who have relinquished control, the conditions stipulated if any be followed by Suppliers.

Change of Distillery:

The supplier who has multiple distilleries registered with BPC under the EOI, due to some issue in the original distillery, supplier shall be allowed to change to alternate distillery (ies) during the period of contract with following conditions: -

- 1. The alternate distillery (ies) can be located in the same state or other state. Quantities so accepted from the alternate distillery, will be allocated by OMCs to the needy locations.
- 2. Certificate from state excise clearly mentioning the reason for non-supply of Ethanol from the original distillery.
- 3. Certificate from state excise clearly mentioning the alternate distillery of the supplier from which the pending quantity is proposed to be supplied. This pending quantity supplied by alternate distillery will be adjusted from allocation of original distillery.
- 4. The transportation rate applicable shall be less than or equal to the rate as per original contract.
- 5. Change of distillery is allowed for:
 - Cooperative distilleries under the administrative control of State Government
 - Distilleries belonging to one company
 - Distilleries belonging to the holding company or wholly owned subsidiary of the supplier company.
 - Certificate from practicing chartered accountant/ company secretary needs to be submitted
 to establish that new supplier is either a holding company or wholly owned subsidiary of the
 original supplier company.

Corrective Measures For Improving Blending Percentage

In order to meet blending targets OMCs reserve the right to take corrective measures under this EOI to promote Ethanol supplies.

Price reduction clause:

The modalities for PRC shall be as under:

Monthly pro-rata PO qty shall be applicable to vendor for supplies of ethanol for the contract period. The supplier shall strictly adhere to the supply schedule i.e. day wise indent (based on monthly prorata PO qty) if provided by OMC location or monthly pro-rata PO quantity. Price Reduction Clause will not be applicable if supplier achieves supply performance of a minimum of 90% of the quantity per month as well as achieve supply performance of a minimum of 95% of the quantity on yearly basis.

In case, the vendor does not achieve 90% of the supplies for a particular month, Price Reduction Clause will be applicable for shortfall in supply. However, if the supplier is able to supply 100% of PO quantity /prorata PO quantity based on date of PO in the quarter (keeping the overall lapse due to TT capacity limited up to 12 KL) and OMC location is able to receive such quantity, monthly PRC shall not be applicable on the supplier for that particular quarter.

Price reduction clause will be calculated at the end of ESY 22-23 as below:

Beginning of the first month will be calculated as 15 days from date of issue of LOI or 7 days from the date of issue of PO or date of reporting of first load, whichever is earlier. If the beginning of the first month does not fall on the first day of the calendar month, prorated indent for the balance period of that month would be considered. Consecutive months of the quarter as defined in the EOI shall form the quarter.

An amount equivalent to 03% of the Basic Cost shall be payable by the supplier for the undelivered monthly quantity (90% of Indented quantity less supplied quantity on month-to-month basis for all such months, excluding the month(s) in those quarter(s) in which 100% supplies made, or for the undelivered yearly quantity (95% of Indented quantity less supplied during the year), whichever is higher.

PRC amount shall be deducted from the payment due to the vendors and/ or by encashing security deposit. OMCs decision in the above cases shall be final.

In addition to above PRC amount, any statutory tax shall be payable as applicable.

In case state government have not issued guidelines for supply of Ethanol produced from Sugarcane Juice/Sugar/Sugar Syrup and/or B Heavy Molasses then in such cases the PRC shall not be applicable for the period until such time certification is started by Excise or any other competent authority in State. In case of any dispute related to PRC waiver, State/regional level OMC committee will study based on the representation received from suppliers, verify facts & submit detailed report to HQO/HO OMC committee to resolve the matter.

Please send signed & sealed copy of Agreement on Non-Judicial Stamp Paper as prescribed in the respective State along-with Security Deposit within one month from receipt of LOI.

The Tender/EOI Documents, Amendments, the Terms & Conditions of the Tender/EOI, Specifications and all other correspondences connected with this Tender/EOI offer shall form part of this Contract Agreement and shall remain in force during the entire contract period.

Letter of Intent (LOI)

Ref: Ethanol OMC Joint Tender No. 1000393915 (Cycle 8) (System ID 11909)

<u>Sub: Letter of Intent (LOI) for Supply of Indigenous Denatured Anhydrous Ethanol - ESY 2022-23 (DEC-22 TO OCT-23)</u>

Dear Sir/ Madam,

This has reference to your e-bid against Joint OMC Tender/EOI No. **1000393915** (Cycle 8) (System ID **11909**) Dated **05/30/2023** & its Corrigendum (floated by BPCL on behalf of PSU OMCs).

Based on your participation, we are hereby issuing "Letter of Intent" to you for supply of Indigenous Denatured Anhydrous Ethanol (meeting BIS Specifications IS 15464 and as amended from time to time) to our locations, as per details given below:

June'23 to August'23

State	Location	Feedstock	Qty. in KL	Basic	Tpt. Cost	GST	Landed	Total
		for		rate	in KL	Rs./KL	cost	Delivered
		Ethanol		Rs./KL		5%	Rs./KL	cost in Rs.
Delhi	Delhi	Damaged	200	55540	675	2810.75	59025.75	11805150
	Terminal	Food						
		Grains						
Delhi	Delhi	Surplus	500	58500	675	2958.75	62133.75	31066875
	Terminal	Rice						

Amount Grand Total: Rs. 42872025 (around Rs. 4.29 Cr.)

Salient Terms and Conditions:

The Terms & Conditions of procurement are as follows:

This is a system generated LOI, hard copy of the same shall be issued by respective Zonal offices. For further assistance in the matter for Security Deposit, agreement etc. kindly get in touch with Zonal offices.

Ethanol Rates: The Ex-mill Basic Ethanol Prices will be as follows:

For Ethanol produced Sugar Cane Juice/Sugar Syrup/Sugar @ Rs.65.61/ litre.

For Ethanol produced from B heavy molasses - @ Rs.60.73/ litre.

For Ethanol produced from "C" Heavy Molasses - @ Rs.49.41/ litre.

For Ethanol produced from Damaged Food grains - @ Rs. 55.54/ litre

For Ethanol produced from Surplus Rice sourced from FCI - @ Rs. 58.50/ litre

For Ethanol produced from Maize - @ Rs. 56.35/ litre

- Additionally, transportation charges as per One-way Distance Transportation Slab Rate mentioned in the Tender/EOI and GST @ 5% (or as may be applicable from time to time) on Basic Rate plus Transportation charges will be paid to you.
- Transportation rates shall be applicable from time to time as per terms & conditions of the EOI.
- > The Import fees of State Excise or any other charges eg. Entry Tax, LBT etc. if incurred by OMC for receiving supply, will be on suppliers account and shall be deducted from suppliers' bills. The prices are on Delivered Cost basis at OMC Locations inclusive of all duties/levies/taxes/charges etc. payable by supplier.
- On sole discretion of OMCs, vendors may be asked to shift 20% of the allocated quantity of the location to any other location on need basis during the latter part of the ESY by informing the bidder well in advance
- ➤ OMCs may procure additional quantity up to 10% over and above the allocated quantity across feedstock categories across locations from the vendor on mutual consent basis by issuing LOI/ Purchase orders.
- The quarters for Ethanol supply will be as follows (first day of first month to last day of end month as applicable):

Quarter I : 1st Dec' 22 to 28th Feb' 23

Quarter II : 1st Mar' 23 to 31st May' 23

Quarter III : 1st Jun' 23 to 31st Aug' 23

Quarter IV : 1st Sep' 23 to 31st Oct' 23

Department of Food & Public Distribution (DFPD) would provide a mechanism of certification to differentiate Ethanol produced from Sugarcane Juice/Sugar/Sugar Syrup and B Heavy molasses and grains (maize/ damaged food grains/ surplus rice sourced from FCI). OMCs shall pay the rate fixed for ethanol derived from B Heavy molasses and Sugarcane Juice/Sugar/Sugar Syrup and grains (maize, damaged food grains/ surplus rice sourced from FCI) only if the Tank Truck delivering Ethanol from such feedstock is carrying the Certificate/ Document as per prescribed mechanism.

Existing mechanism for certification of ethanol shall prevail till the revised mechanism if any is issued by DFPD at a later date.

In case of Ethanol manufactured from Damaged food grains each TT delivering Ethanol from Damaged Food Grain must carry the Certificate/ Document issued by Excise Authority with unique serial number certifying the feed stock used for production i.e., Damaged food grain of such Ethanol

and the invoice should have endorsement from Excise officials with the serial number of the certificate as mentioned above which will be attached along with the consignment.

In case of Ethanol manufactured from maize/ surplus rice sourced from FCI, suppliers are required to submit a certificate stating that the Ethanol has been produced from Maize along with every Tank Lorry carrying Ethanol produced from Maize and supplied to OMC location.

"This LOI is being issued in bona-fide understanding pursuant to Hon'ble NGT Orders dated 28 September, 2018 and 30 October, 2018 and subject to the directions mentioned therein. You will be complying with the safety norms as specified by PESO and all others rules/ regulations framed by PESO in this regard and/or any directions issued by Hon'ble NGT/ any other court."

Refer clause in the Tender/EOI No 1000393915, system ID 6683, The project proponents/ suppliers who have valid Long Term Offtake Agreement and offer quantity during the ESY 2022-23 will be given preferential allocation for supplying Ethanol to the extent of prorated design capacity for the balance period of ESY 22-23. However, the said suppliers are required to register themselves with OMCs for their upcoming plants (including expansion of existing distillery) and participate in the Ethanol Procurement process of OMCs during the ESY 22-23. In order to meet the above prorated annual off-take quantity as per agreement, if found necessary, the pre-allocated quantities awarded to bidders (other than DEPs) under this EOI may be reduced. Such reduction in allocated quantity will be carried out in the reverse order of EOI allocation criteria, as described below:

- 1. The allocation made to the farthest existing supplier from the OMC location from outside the state shall be reduced first.
- 2. If the quantity is not sufficient to accommodate the offtake quantity as per agreement, then allocation from the next farthest existing supplier shall be reduced and so on as per distance of the existing supplier(s) from OMC location.
- 3. If the quantity reduced from existing suppliers from outside state is not sufficient to accommodate the offtake quantity as per agreement, then the reduction in allocation from the existing suppliers from within the state shall be resorted to.
- 4. Within the state, the allocation made for ethanol from CHM, DFG, Maize and FCI rice from the farthest existing supplier shall be reduced first.
- 5. If the quantity is not sufficient, then allocation for ethanol from CHM, DFG, Maize and FCI rice from next farthest existing supplier shall be reduced and so on as per distance of the existing supplier from OMC location.
- 6. Next, allocation made for ethanol from BHM shall be reduced as explained in step 4&5 above.
- 7. Next allocation made from SCJ shall be reduced as explained in step 4&5 above.
- 8. The quantity so reduced, endeavor would be made to shift the same to the locations wherever additional Ethanol is required by OMCs
- 9. For the above, the distance between OMC location and the existing supplier will be based on the one-way distance slab applicable for transportation rates.

The reduced quantity, as above, may be re-allocated based on mutual consent. In case, re-allocation not acceptable to the existing supplier, the allocation will stand reduced, and the balance quantity after reduction from the original allocation will only be considered for PRC, BG, indents, etc. and not on the original quantity.

The existing supplier will be informed at least one month in advance about the above reduction in the pre-allocated quantity.

Delivery schedule:

- (a) The Supplier, within a maximum period of one month of placement of LOI shall Deposit Bank Guarantee or Demand Draft and signed Agreement. If the supplier does not submit BG and/or signed agreement within specified period as per LOI, the LOI may be treated as cancelled and the Supplier's EMD may be forfeited and holiday listing provisions may apply. In case, if supplier is not able to honor the LOIs issued by OMCs for a particular category/all categories of the feedstock, the LOI may be treated as cancelled and the Supplier's EMD may be forfeited and holiday listing provisions may apply.
- (b) The vendor shall be liable for applicability of PRC clause for delay in submission of BG beyond above mentioned period.
- (c) It is to be noted that timely delivery by the Supplier as per the delivery schedule is the essence of contract. Monthly procurement plan based on monthly pro-rata Purchase Order (PO) quantity shall be applicable to Vendor for supply unless same is revised by OMC Location with mutual consent.
- (d) It will be the responsibility of the Suppliers to arrange for all the approvals / clearances / permits in connection with Excise or any statutory requirement for supply of ethanol to the OMC locations as per the Tender/EOI clause of delivery period. Applications as required for necessary NOCs /Permits / import /export permits etc will be made available by the OMCs.
- (e) Suppliers shall engage only such Tank Truck crew whose Antecedents have been verified and certificate issued by Police or proof of application made for the same. This will be verified by the locations for entry of TT crew into the OMC locations.

The delivery should commence within 15 days from the date of LOI or 7 days from the date of the PO, once placed, whichever is earlier.

Security Deposit (SD):

Security deposit of 03% of basic contract value in the form of BG/ retention of SD amount from initial invoices, for the full allocation of ESY 2022-23 will be given by the successful vendor within one month of issuance of LOI. In case the successful bidder is unable to meet this condition, the allocation for which SD is not submitted is liable to be withdrawn.

Payment terms:

100% of the payment shall be made within 21 days' after receipt of material at OMC Location and against submission of original invoice along with applicable excise certificates for differentiation of various feed stock.

Provisions of TCS will be as applicable from time to time.

Transit Insurance:

The transit insurance for Ethanol being delivered at OMC location will be in the scope of the supplier. The rates quoted are inclusive of insurance charges and applicable taxes/duties /service tax etc.

Supply Agreement:

This is a system generated LOI, hard copy of the same shall be issued by respective Zonal offices. For further assistance in the matter for Security Deposit, agreement etc. kindly get in touch with Zonal offices.

Along with submission of Security Deposit, the Ethanol Supply Agreement (as per attached Agreement format) to be submitted for issuance of Purchase Order.

It is to be clearly understood that, particularly in respect of States where the State Excise Dept. has relinquished its control & monitoring for Denatured Ethanol as per amendment to IDR Act, the entire responsibility of proper Denaturation of Ethanol and en-route malpractice, if any; will be that of the Supplier and OMCs will not be responsible for the same in any manner and directions of respective state govt. who have relinquished control, the conditions stipulated if any be followed by Suppliers.

Change of Distillery:

The supplier who has multiple distilleries registered with BPC under the EOI, due to some issue in the original distillery, supplier shall be allowed to change to alternate distillery (ies) during the period of contract with following conditions: -

- 1. The alternate distillery (ies) can be located in the same state or other state. Quantities so accepted from the alternate distillery, will be allocated by OMCs to the needy locations.
- 2. Certificate from state excise clearly mentioning the reason for non-supply of Ethanol from the original distillery.
- 3. Certificate from state excise clearly mentioning the alternate distillery of the supplier from which the pending quantity is proposed to be supplied. This pending quantity supplied by alternate distillery will be adjusted from allocation of original distillery.
- 4. The transportation rate applicable shall be less than or equal to the rate as per original contract.
- 5. Change of distillery is allowed for:
 - Cooperative distilleries under the administrative control of State Government
 - Distilleries belonging to one company
 - Distilleries belonging to the holding company or wholly owned subsidiary of the supplier company.
 - Certificate from practicing chartered accountant/ company secretary needs to be submitted
 to establish that new supplier is either a holding company or wholly owned subsidiary of the
 original supplier company.

Corrective Measures For Improving Blending Percentage

In order to meet blending targets OMCs reserve the right to take corrective measures under this EOI to promote Ethanol supplies.

Price reduction clause:

The modalities for PRC shall be as under:

Monthly pro-rata PO qty shall be applicable to vendor for supplies of ethanol for the contract period. The supplier shall strictly adhere to the supply schedule i.e. day wise indent (based on monthly prorata PO qty) if provided by OMC location or monthly pro-rata PO quantity. Price Reduction Clause will not be applicable if supplier achieves supply performance of a minimum of 90% of the quantity per month as well as achieve supply performance of a minimum of 95% of the quantity on yearly basis.

This is a system generated LOI, hard copy of the same shall be issued by respective Zonal offices. For further assistance in the matter for Security Deposit, agreement etc. kindly get in touch with Zonal offices.

In case, the vendor does not achieve 90% of the supplies for a particular month, Price Reduction Clause will be applicable for shortfall in supply. However, if the supplier is able to supply 100% of PO quantity /prorata PO quantity based on date of PO in the quarter (keeping the overall lapse due to TT capacity limited up to 12 KL) and OMC location is able to receive such quantity, monthly PRC shall not be applicable on the supplier for that particular quarter.

Price reduction clause will be calculated at the end of ESY 22-23 as below:

Beginning of the first month will be calculated as 15 days from date of issue of LOI or 7 days from the date of issue of PO or date of reporting of first load, whichever is earlier. If the beginning of the first month does not fall on the first day of the calendar month, prorated indent for the balance period of that month would be considered. Consecutive months of the quarter as defined in the EOI shall form the quarter.

An amount equivalent to 03% of the Basic Cost shall be payable by the supplier for the undelivered monthly quantity (90% of Indented quantity less supplied quantity on month-to-month basis for all such months, excluding the month(s) in those quarter(s) in which 100% supplies made, or for the undelivered yearly quantity (95% of Indented quantity less supplied during the year), whichever is higher.

PRC amount shall be deducted from the payment due to the vendors and/ or by encashing security deposit. OMCs decision in the above cases shall be final.

In addition to above PRC amount, any statutory tax shall be payable as applicable.

In case state government have not issued guidelines for supply of Ethanol produced from Sugarcane Juice/Sugar/Sugar Syrup and/or B Heavy Molasses then in such cases the PRC shall not be applicable for the period until such time certification is started by Excise or any other competent authority in State. In case of any dispute related to PRC waiver, State/regional level OMC committee will study based on the representation received from suppliers, verify facts & submit detailed report to HQO/HO OMC committee to resolve the matter.

Please send signed & sealed copy of Agreement on Non-Judicial Stamp Paper as prescribed in the respective State along-with Security Deposit within one month from receipt of LOI.

The Tender/EOI Documents, Amendments, the Terms & Conditions of the Tender/EOI, Specifications and all other correspondences connected with this Tender/EOI offer shall form part of this Contract Agreement and shall remain in force during the entire contract period.

<mark>- | Д. Р. У. Д. N. Д. S. Т. Д. Т. Н</mark>агуапа State Pollution Control Board.

Terms and conditions

- 1. The industry has declared that the quantity of effluent shall be 1127 KL/Day i.e 1097KL/Day for Trade Effluent, 0 KL/Day for Cooling, 30 KL/Day for Domestic and the same should not exceed.
- 2. The above 'Consent to Establish' is valid for 60 months from the date of its issue to be extended for another one year at the discretion of the Board or till the time the unit starts its trial production whichever is earlier. The unit will have to set up the plant and obtain consent during this period.
- 3. The officer/official of the Board shall have the right to access and inspection of the industry in connection with the various processes and the treatment facilities being provided simultaneously with the construction of building/machinery. The effluent should conform the effluent standards as applicable
- 4. That necessary arrangement shall be made by the industry for the control of Air Pollution before commissioning the plant. The emitted pollutants will meet the emission and other standards as laid/will be prescribed by the Board from time to time.
- 5. The applicant will obtain consent under section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 and under section 21/22 of the Air (Prevention & Control of Pollution) Act, 1981 as amended to-date-even before starting trial production
- 6. The above Consent to Establish is further subject to the conditions that the unit complies with all the laws/rules/decisions and competent directions of the Board/Government and its functionaries in all respects before commissioning of the operation and during its actual working strictly.
- 7. No in-process or post-process objectionable emission or the effluent will be allowed, if the scheme furnished by the unit turns out to be defective in any actual experience
- 8. The Electricity Department will give only temporary connection and permanent connection to the unit will be given after verifying the consent granted by the Board, both under Water Act and Air Act.

- 9. Unit will raise the stack height of DG Set/Boiler as per Board's norms.
- 10. Unit will maintain proper logbook of Water meter/sub meter before/after commissioning.
- 11. That in the case of an industry or any other process the activity is located in an area approved and that in case the activity is sited in an residential or institutional or commercial or agricultural area, the necessary permission for siting such industry and process in an residential or institutional or commercial or agricultural area or controlled area under Town and Country Planning laws CLU or Municipal laws has to be obtained from the competent Authority in law permitting this deviation and be submitted in original with the request for consent to operate.
- 12. That there is no discharge directly or indirectly from the unit or the process into any interstate river or Yamuna River or River Ghaggar.
- 13. That the industry or the unit concerned is not sited within any prohibited distances according to the Environmental Laws and Rules, Notification, Orders and Policies of Central Pollution control Board and Haryana State Pollution Control Board.
- 14. That of the unit is discharging its sewage or trade effluent into the public sewer meant to receive trade effluent from industries etc. then the permission of the Competent Authority owing and operating such public sewer giving permission letter to his unit shall be submitted at time of consent to operate.
- That if at any time, there is adverse report from any adjoining neighbor or any other aggrieved party or Municipal Committee or Zila Parishad or any other public body against the unit's pollution; the Consent to Establish so granted shall be revoked.
- That all the financial dues required under the rules and policies of the Board have been deposited in full by the unit for this Consent to Establish.
- 17. In case of change of name from previous Consent to Establish granted, fresh Consent to Establish fee shall be levied.
- 18. Industry should adopt water conservation measures to ensure minimum consumption of water in their Process. Ground water based proposals of new industries should get clearance from Central Ground Water Authority for scientific development of previous resource.
- 19. That the unit will take all other clearances from concerned agencies, whenever required.
- 20. That the unit will not change its process without the prior permission of the Board.
- 21. That the Consent to Establish so granted will be invalid, if the unit falls in Aravali Area or non conforming area.
- 22. That the unit will comply with the Hazardous Waste Management Rules and will also make the non-leachate pit for storage of Hazardous waste and will undertake not to dispose off the same except for pit in their own premises or with the authorized disposal authority.
- 23. That the unit will submit an undertaking that it will comply with all the specific and general conditions as imposed in the above Consent to Establish within 30 days failing which Consent to Establish will be revoked.
- 24. That unit will obtain EIA from MoEF, if required at any stage.
- 25. In case of unit does not comply with the above conditions within the stipulated period, Consent to Establish will be revoked.
- 26. That unit will obtain consent to operate from the board before the start of product activity.

Specific Conditions

Other Conditions:

- That the unit will apply for consent to operate before starting the production activity.
 That the unit will abide by the directions of CPCB/HSPCB/any other competent authority
- 3. That the unit will abide the directions/ orders of Hon'ble Supreme court /High Court/NGT/any other court.
- 4. Unit shall install PCMs and OMD as applicable.
- 5. Unit shall comply with the conditions of EC.

Terms and conditions

- 1. The applicants shall maintain good house keeping both within factory and in the premises. All hose pipelines values, storage tanks etc. shall be leak proof. In plant allowable pollutants levels, if specified by State Board should be met strictly.
- 2. The applicant/company shall comply with and carry out directive/orders issued by the Board in this consent order at all subsequent times without negligence of his /its part. The applicant/company shall be liable for such legal action against him as per provision of the law/act in case of violation of any order/directives. Issued at any time and or non compliance of the terms and conditions of his consent order.
- 3. The applicant shall make an application for grant of consent at least 90 days before the date of expiry of this consent.
- 4. Necessary fee as prescribed for obtaining renewal consent shall be paid by the applicant along with the consent application.
- 5. If due to any technological improvement or otherwise this Board is of opinion that all or any of the conditions referred to above required variation (including the change of any control

equipment either in whole or in part) this Board shall after giving the applicant an opportunity of being heard vary all or such condition and there upon the applicant shall be bound to comply with the conditions so varied.

- 6. The industry shall provide adequate arrangement for fighting the accidental leakages, discharge of any pollutants gas/liquids from the vessels, mechanical equipment etc. which are likely to cause environment pollution.
- 7. The industry shall comply noise pollution (Regulation and control) Rules, 2000.
- 8. The industry shall comply all the direction/Rules/Instructions as may be issued by the MOEF/CPCB/HSPCB from time to time.
- 9. The industry shall ensure that various characteristics of the effluents remain within the tolerance limits as specified in EPA Standard and as amended from time to time and at no time the concentration of any characteristics should exceed these limits for discharge.
- 10. The industry would immediately submit the revised application to the Board in the event of any change in the raw material in process, mode of treatment/discharge of effluent. In case of change of process at any stage during the consent period, the industry shall submit fresh consent application alongwith the consent to operate fee, if found due, which may be on any account and that shall be paid by the industry and the industry would immediately submit the consent application to the Board in the event of any change during the year in the raw material, quantity, quality of the effluent, mode of discharge, treatment facilities etc.
- 11. The officer/official of the Board shall reserve the right to access for the inspection of the industry in connection with the various process and the treatment facilities. The consent to operate is subject to review by the Board at any time.
- 12. Permissible limits for any pollutants mentioned in the consent to operate order should not exceed the concentration permitted in the effluent by the Board.
- 13. The industry shall pay the balance fee, in case it is found due from the industry at any time later on.
- 14. If the industry fails to adhere to any of the conditions of this consent to operate order, the consent to operate so granted shall automatically lapse.
- 15. If the industry is closed temporarily at its own, they shall inform the Board and obtain permission before restart of the unit.
- 16. The industry shall comply all the Directions/ Rules/Instructions issued from time to time by the Board.

Specific Conditions:

- 1. Unit will maintain and operate its APCM, ETP (ZLD) and STP regularly and effectively to achieve prescribed environmental standards/norms.
- 2. Unit will comply the order/ direction issued by the Hon'ble Supreme Court of India, Punjab & Haryana High Court, NGT, Environment Court or any other court.
- 3. Unit will apply for renewal of consent to operate before 90 days from the expiry of this CTO.
- 4. Unit will comply with the all the Rules/ Regulations/ Guidelines/ Acts/ Notification.
- 5. Unit will submit A/R under Water/Air/Noise whichever is applicable within 90 days after grant of this CTO.
- 6. Unit will obtain authorization under HOWM Rules, 2016, if applicable.
- 7. In case, any violations is found at any stage, then this CTO, so granted, shall be revoked without giving show cause notice.

^{*} Terms & conditions are at the back of this page.

Validity of this NOC shall be subject to compliance of the following mandatory conditions

This NOC for abstraction of ground water, shall be subject to the following terms and conditions

- NOC is granted to the applicant on the condition that local government water supply agencies are not able to supply the desired quantity of
 water. In case of supply of water from local agency the applicant shall immediately inform HWRA and reduce the abstraction of ground
 water accordingly.
- 2. The applicant shall adopt latest water efficient technologies to reduce dependence on ground water resources by 20% in three years. Compliance report in this regard shall be submitted yearly. The proof of reduction of dependence on ground water shall also be submitted half yearly i.e., at the time of deposit of water abstraction charges of the second quarter.
- 3. The applicant abstracting ground water between 100-500 kld shall undertake self-annual water audit and those abstracting ground water more than 500 kld shall undertake water audit through organisations authorised by Government of India or HWRA and submit audit reports at the time of renewal of the NOC.
- 4. Construction of observation well(s) (piezometer)(s) within the premises and installation of appropriate water level monitoring mechanism shall be mandatory for industries drawing or proposing to draw more than 500 kld of ground water and Monitoring of water level shall be done by project proponent. The piezometer (observation well) shall be constructed at a minimum distance of 25 m from the production well. Depth and aquifer zone tapped in the piezometer shall be the same as that of the pumping well wells Detailed guidelines for design and construction of piezometer is given on the portal. Monthly water level data shall be submitted to the HRWA through the web portal on quarterly basis.
- 5. The applicant with red category industries as per Haryana State Pollution Control Board shall store the harvested rainwater in surface storage tanks for use in the industry and shall not use the harvested rainwater to recharge ground water, further the applicants under this category shall ensure wellhead protection measures to prevent ground water pollution and will inform the compliance within 3 months.
- 6. Injection of treated/untreated wastewater/effluents into aquifer system is strictly prohibited.
- 7. The applicant drawing ground water in safe, semi-critical and critical assessment units shall be required to pay ground water abstraction charges on quarterly basis, applicable as per Tables 5.3A.
- 8. The applicant drawing ground water in over-exploited assessment units shall be liable to pay ground water restoration charges on quarterly basis, applicable as per Tables 5.3 B.
- 9. All the tube wells/ground water abstraction structures permitted shall be fixed with digital electromagnetic/ultrasonic water meters, by the industry at its own cost with telemetry system and monthly ground water abstraction data shall be recorded in a logbook. Compliance to this condition shall be reported within one month from the date of issue of this letter. Daily water meter readings to be recorded in a dedicated register and shall be submitted on the web portal to HWRA on quarterly basis or through centralized mechanism evolved by HWRA. The geotag photos of all the flow meters/water meters showing date and coordinates be uploaded on the portal for calculation of quarterly tariff. Without geotagged photos not showing date and coordinates will not be entertained.
- 10. The applicant, as per approved proposal, shall implement rainwater harvesting and ground water recharge measures within three months from the date of issuance of this NOC and undertake periodic maintenance of recharge structures. Photographs (with geo tag only) of the recharge structures etc. and compliance of completion of construction of the same along with copy of NOC shall be furnished immediately to the Haryana Water Resources Authority for verification, on the Email ID of the Authority (compliance hwra@hry.gov.in)
- 11. The ground water chemical quality shall be monitored twice in a year during pre & post-monsoon period.
- 12. The monthly ground water level monitoring data in respect of piezometer shall be submitted quarterly to the Haryana Water Resources Authority on regular basis.
- 13. The applicant shall ensure proper recycling and reuse, including use for green belt, of wastewater after adequate treatment.
- 14. In case of renewal, application shall be submitted online within 90 days before the expiry of this NOC and abstraction of ground water, after expiry of NOC shall be illegal and liable for legal action as per law.
- 15. The applicant shall seek prior permissions from HWRA for any increase in daily quantum of groundwater abstraction (i.e. more than the permitted limit in the NOC).
- 16. Where the applicant granted NOC for abstraction of saline water and the existing well(s) is/are yielding fresh water, the same shall be sealed and new tube well(s) tapping saline water shall be constructed within 3 months of the issuance of NOC or from the date of seal of the fresh water tube well, as the case may be. The applicant shall be also ensuring safe disposal of saline residue, if any.
- 17. The applicant shall comply with the provisions of the Haryana Water Resources (Conservation, Regulation and Management) Authority Act, 2020, Rules, regulations, guidelines and directions issued thereunder. Non-compliance of these provisions shall be liable for the penalty as per the provisions of the Act, rules and regulations, guidelines and directions issued thereunder.
- 18. The applicant shall ensure the 100% reuse for non potable usage of self generated waste water after due treatment. He shall also ensure to reuse for non potable usage the Treated Waste Water (other than self generated) as per application and NOC terms & conditions
- 19. Since, this NOC has been issued on the basis of self-assessment by the applicant and without any site inspection, hence the Authority may inspect the site/unit and documents at any time. In case any material difference is found in the information submitted and the site conditions or documents, the Authority may suspend the NOC granted immediately and may revoke or modify the NOC after giving a notice to the applicant.
- 20. This NOC is subject to prevailing State Government rules/law of Courts orders related to construction of tube well, ground water withdrawal, construction of recharge or conservation structure/discharge of effluents or any such matters as applicable.
- 21. The applicant shall comply with the directions/conditions/instructions issued by any Court of law related to the matters concerned with the Authority.
- 22. The applicant shall report self-compliance duly signed by authorized person along with authorization letter by e-mail to Haryana Water Resources Authority quarterly as well as yearly basis after the issuance of NOC.
- 23. This NOC does not absolve the applicant of his obligation/requirement to obtain the necessary approvals from the statutory and administrative Authorities/Departments.
- 24. The issuance of this NOC does not imply that other statutory or administrative clearances shall necessarily be granted to the applicant by the concerned authorities. The concerned Authorities shall act as per their own procedure.
- 25. The applicant shall immediately inform the HWRA, if any change in the information provided by the applicant in the application form for seeking NOC.
- 26. This NOC shall not absolve the applicant from any penalty/punishment/environment compensation, which may have been imposed or may be imposed, for abstraction of groundwater during such period, before the issuance of this NOC.
- 27. In case of non-payment or delayed payment of ground water abstraction/restoration charges, a penal interest @ 18% shall be charged.
- 28. The necessary compliance shall be submitted to the Authority on the web portal of the Authority i.e. www.hwra.org.in or on the email id compliance-hwra@hry.gov.in.
- 29. In case validity period of the CTE/CTO expires during currency period of the NOC, then it will be responsibility of the project proponent to get it renewed well in time & submit renewed CTE/CTO within month after renewal of CTE/CTO by HSPCB, to HWRA. If the CTE/CTO has been suspended or rejected, project proponent is required to intimate the same to HWRA within a week of such rejection or suspension.
- 30. Applicant to comply IS:10500:2012 standards before use of abstracted ground water for drinking & domestic purposes.

All Concerned

From

HR Department

Subject

Environment Management Cell (EMC)

Date

June 01, 2023

Preserving environment is of paramount concern in all our operations in the works. In our efforts to promote safe environment practices, the **Environment Management Cell** (EMC) is hereby constituted.

The EMC shall be headed by the Manager (Environment) and will have following team members:

Mr. Vikash Rana

Environment

Team Leader

Mr. Z R Khan

Civil & Projects

Coordinator

Mr. Jagmohan Singh

Production

Member

Mr. Manmohan Singh

HR

Member

Mr. Ajay Sahrawat

Mechanical

Member

Mr. Ashwani Kumar

Power Plant

Member

ROLE & RESPONSIBILITIES OFEMC

The primary purpose of the EMC shall be to promote safe environment practices and reduce the potential impact of environmental aspects in the surrounding communities.

General functions of this Team shall be as under:

- · Reducing our environmental impacts on communities
- Identifying and reviewing workplace environmental hazards
- · Enforcement of environment protection rules
- Measuring safety performance
- Developing and monitoring environment training programs
- Reviewing infrastructure pertaining to workplace safety.

All EMC Members shall perform, contribute and encourage employees to work actively for the cause of environment protection and safety with the target of zero accidents.

The Team shall meet once in every fortnightly to review progress in the stated areas and present its report to the Management.

The above arrangements shall come into force with immediate effect.

Devinder Singh

Sr Manager (HR)

M G Petrochem Pvt. Ltd

By hand

Dated: 21.05.2025

To The Regional Officer Haryana State Pollution Control Board Panchkula (Haryana).

Sub: - Submission of Environmental Statement for the year 2024-25.

Dear Sir,

- Please find enclosed herewith Environmental Statement for the year 2024-25 for your information and records.
- Kindly acknowledge the receipt.

Thanking you,

Yours faithfully, For MG Petrochem Pvt.Ltd.

Authorised Signatory)

Encl. As above.

Environment statement for the year ending the 31st March 2025 Part –A

i Name and address of the owner/occupier of the industry operation process.

Sh. Lokesh Mittal M G Petrochem Pvt ltd

Village: Firozpur, Tehsil: Raipur Rani Dist.: Panchkula Haryana, INDIA-134204

ii Industry category prime (STC Code) Secondary (SIC code)

iii Capacity consented: 215000 lit per day Operational: 215000 lit per day

Year of establishment: 2023

iv

v. Date of the last environment statement Submitted:13.05.2024

PART -B

Water and raw Material consumption

1) Water consumption 830 m3/d Process 815 m3/d Domestic 15 m3/d

S.NO.	Name of products	Process water consumption per unit of out put		
		During the Previous During the current financial year 2023-24 financial year 2024-2025		
1.	Ethanol	5.19	4.0	
2.				

2) Raw material consumption for 2024-25

S. no.	Name of Raw material	Name of Products	Consumption of Raw material per u of product out put	
			During the previous financial year 2023-24	During the current financial year 2024-25
1.	Grain	Ethanol	2.28 Kg/ltr	2.38 Kg/ltr.

Industry may use codes if disclosing details of Raw material would violate contractual obligation, otherwise all industries have to name the raw material used.

PART -C

Pollution Discharge to environment / unit of output. (Parameters specified in the consent issued)

Pollutants	Quantity of pollutants	Concentration of	% age of violation
	Discharged(mass/day-)	pollutants in discharges	from prescribed
		(mass/volume)	standards with
			reasons.
(a) Water	Nil (Complete ZLD)	N.A	N.A
(b) Air	147937.30 NM3	S.P.M. 26.23 mg/ NM3	Within limits

• Industry Achieved ZLD from starting.

PART - D

HAZARDOUS WASTE

As specified under hazardous waste (management & handling rules, 1989)

Hazardous waste	Total quantity (kg)		
	During the previous	During the current	
	financial year 2023-24	financial year 2024-25	
(a) From process	NA	NA	
(b) Pollution control facilities ETP Sludge/Salt	20.215 MT	51.800 MT	

PART –E

SOLID waste sludge / salts	Total Quantity (Kgs)	
	During the previous	During the current
	financial year 2023-24	financial year 2024-25
a) From process	Nil	Nil
b) Pollution control facilities.	Nil	Nil

PART -F

Please specify the characterization (in term of composition of quantum) of hazardous as well as solids waste and indicate disposal practice adopted for both these categories of wastes.

ETP Sludge/Salt are Send to the GEPIL Faridabad which is a TSDF Facility.

PART -G

Impact of the pollution abatement measures taken on conservation of natural resources and on the cost of production.

By installation of Evaporators the company has already achieved zero liquid discharge in the distillery from starting of industry. Through Evaporators the whole effluent generated in distillery is converted into two parts i.e. one part is condensate water & other part is concentrate.

The concentrate received from Evaporator is feed to dryer. After drying in dryer it is converted into DDGS/ Cattle feed and then sale out to the Cattle feed manufacturers.

The condensate water received from Evaporators is further treated ETP and recycle plant and the entire quantity of Treated water is sent to the process and cooling towers through treated water tank for reuse / recycles. ZLD of effluent is achieved.

Through the above reuse / recycling of the effluent, requirement for fresh water has been substantially reduced.

Grains used for Ethanol production, the effluent generation had already reduced to minimum requirement as possible.

The company has already invested capital cost earmarked towards environmental pollution control measures is Rs. 24.0 Crores and the Recurring cost (operation and maintenance) about Rs.1.5 Crores/annum. on pollution control measures & conserving water besides environmental protection up 2024-25.

Part -I

Any others particulars for improving the quality of environment: Plantation of trees in rainy season.

ADDITIONAL INFORMATION REQUIRED FOR ENVIRONMENT STATMENT

1. Methods of waste prevention

- a) Alternate raw material or replacement of toxic material: N.A
- b) Cleaner technology:

Evaporator system is in operation to utilize entire spent wash generated in distillery. DDGS, ETP with ZLD is installed.

- 2. Methods of waste reduction as above.
- 3. Mass balance in flow chart indicating raw material, products, solid, liquid and gaseous: Enclosed
- 4. Environmental sound layout: Already existing
- 5. Maintenance of Ecological balance by compensatory method.
- 6. a) Tree plantation details as under:

Plants	Qty.	Age of Plants
Kadam	500	3 to 4 years
Pilkhan	300	3 to 4 years
Arjun Tree	200	2 to 3 years
Siris	200	4 to 5 years
Alstonia	200	3 to 4 years
Papdi	200	3 to 4 years
Amaltas	300	4 to 5 years
Gulmohar	100	3 to 4 years
Chukrassia	100	2 to 3 years
Bottle Palm	200	3 to 4 years
Champa	200	2 to 3 years
Mango	200	2 to 3 years
Teek (Sagwan)	50	3 to 4 years
Jamun	100	3 to 4 years
Silver Oak	50	3 to 4 years
Conocarpus	1500	3 to 4 years
Alstonia	200	3 to 4 years
Neem	200	3 to 4 years
Sheesham	100	4 to 5 years
Palms	200	3 to 4 years
Golden Ficus	500	3 to 4 years
Golden Ficus Panda	500	3 to 4 years

- b) Plan for future tree plantation 400 trees approximately are likely to be planted in the coming Raining seasons.
- c) ETP Sludge and Salts are lifted by the GEPIL a TSDF facility.
- d) Utilization of Bio pesticides for horticulture: NA.

MG Petrochem Private Ltd.

Daily Mass Balance Flow Chart of Manufacturing Process @ 215 KLD Ethanol Production

CHANDIGARH, FRIDAY OCTOBER 29, 2021; PAGES 12 72
